Summary

Motivated and detail-oriented frontend developer with a Master's degree in software engineering. Skilled in translating design concepts into responsive, accessible, and user-friendly web applications using react, javascript, and tailwind CSS. Currently expanding expertise in backend development, with a solid understanding of Node.js, Express, RESTful APIs, and relational databases. With a great aptitude for learning, and a rapid ability to adjust to new tools and technologies, as well as a focus on clean and maintainable code. Seeking a frontend developer position to contribute to building software solutions, and further develop technical skills in a professional setting.
